CORRIGENDUM TO COMPLETE LIST OF ARTICLES PUBLISHED IN IJASM SINCE 1954

Dear reader,

In the winter issue of 2002 we had made an attempt to list out all the articles published in the Indian Journal of Aerospace Medicine since its inception in 1954. As we continue to refine that list we have come across some errors of omission/commision. We regret the errors.

Effort goes on to correct this list. In this issue we publish the errors which have caught our attention. We have not recieved any amendments from our readers. We continue to look forward to any suggestions or corrections to this list.

It would also not be out of place to place on record the contribution made by Gp Capt N Rattan VSM in compiling this exhaustive list. Had it not been for the data base created by him at IAM, that this list would not have seen the light of day.
