MESSAGE

1. I learnt with pleasure that the ‘Indian Journal of Aerospace Medicine’, published by the Indian Society of Aerospace Medicine is bringing out a commemorative issue to mark fifty years of its publication.

2. The Journal reflects the vibrant ideas and activities of the Society and records the changes in understanding and enhancement of knowledge within the speciality. In effect, half a century of growth in the field of Aerospace Medicine is recorded in the issues of the Journal. These are an invaluable source of information, reflecting the evolution of the speciality to its present status.

3. Our Country is poised for sustained rapid growth and modernisation, both in military and civil aviation. The projected growth in aerospace activities presents challenges that need to be resolved by aerospace medicine specialists, to ensure that aviation activities continue to be safe and purposeful. I am sure the Journal will continue to publish useful material to inspire young professionals in their own endeavours.

4. I congratulate the Society on its effort and hope that its activities would continue to grow commensurate with the needs of the times.

Jai Hind!

MESSAGE FROM AOC-IN-C TRAINING COMMAND

1. It gives me great pleasure that the Indian Society of Aerospace Medicine (ISAM) is proposing to bring out a commemorative issue on the occasion of the 50th year of publication of the Indian Journal of Aerospace Medicine.

2. I have followed with a sense of immense satisfaction the tireless efforts put in by the ISAM in furthering its aims and objectives which promote physical and psychological well being of all involved with the aviation industry. The Society, with members from wide cross section of aviation related disciplines has been indefatigably contributing to make military and civil aviation safer in our country. Research conducted by Society members has been recognised both nationally and internationally and I can safely vouch that they will continue to be at the forefront in providing realistic solutions to aeromedical problems confronting the aviators. The journal is the treasure chest where most of this work is archived for posterity. The commemorative issue will be a jewel in the crown.

3. I extend my warm greetings and felicitations to all the members of the Society and wish them ‘Happy landings’ in times to come.

MESSAGE

1. I am happy to note that the 'Indian Journal of Aerospace Medicine', published by the Indian Society of Aerospace Medicine is bringing out a commemorative issue to mark fifty years of its publication.

2. In the coming decades our country is projected to become a world leader in economic and scientific fields. The aerospace industry of our country is growing at a rapid pace, which is likely to pose many challenges. I am sure that the 'Aerospace Medicine' community will meet these challenges adequately and provide timely and viable solutions.

3. Over the last five decades the 'Indian journal of Aerospace Medicine' has constantly maintained a high standard of scientific writing. This commemorative issue is a tribute to those involved with the practice of the speciality of Aerospace Medicine and furthering the goals of the Indian Society of Aerospace Medicine. I am sure the journal would continue to truly reflect the rapidly changing face of Aerospace Medicine.

4. I wish the society all the best in all their forthcoming endeavours.

MESSAGE

1. I am glad to note that the ‘Indian Journal of Aerospace Medicine’, published by the Indian Society of Aerospace Medicine is planning to bring out a commemorative issue to mark its fifty years of publication.

2. The society has made rapid and consistent strides in promoting the specialty of aviation and space medicine in India and is indeed a world leader in the field of Aerospace Medicine academic activities.

3. The concept of the commemorative issue has been chosen after a lot of deliberation. In acknowledging the past and its achievements, we also set higher goals for ourselves in the future. I am confident that the members will chart the future roadmap through proactive research and its application, to ensure a safer military and civil flying environment in the country.

4. On this momentous occasion, I felicitate all members of the Society for their dedication and zeal and wish them all success in their endeavours.

MESSAGE

1. It gives me great pleasure to note that the Indian Society of Aerospace Medicine is bringing out the fiftieth year commemorative issue of its scientific journal - 'Indian Journal of Aerospace Medicine'.

2. The society has taken the practice of Aerospace Medicine from strength to strength over the years, and its annual conferences and publications have always been applauded both for the professional and scientific deliberations as well as the high standards of organisation. I have no doubt that the commemorative issue will be a big success, too.

3. I extend my best wishes to the Society for achieving its aims and objectives in the future.

MESSAGE

1. I wish to extend my heartiest greetings to those involved in the publication of the commemorative issue to mark the fifty years of publication of the Indian Journal of Aerospace Medicine which interestingly coincides with the fifty years of Institute of Aerospace Medicine, the place from where the journal is published.

2. The Society's endeavor in promoting the speciality of Aerospace Medicine over the past five decades is evident from the recognition and adulation the Society has received over the years. Its activities have had a positive impact on the Indian Aviation Industry and have endeavored to make aviation safer and meaningful. While commemorating fifty publishing years, I am sure the members shall rededicate themselves and redirect their energies in accomplishing the aims and objectives of the Society.

3. In their effort, I wish them success and achievement.
